## About Me

Graduated from Kirikkale University Computer Engineering Department. Worked on different projects. Currently progressing in front end development and make game with Unity. Care about code readability and OOP while working. I have a structure that works with all its strength to fulfill the given tasks and is open to innovations and learning. I want to work on projects that will enable me to apply the knowledge I have learned in practice and to improve my existing knowledge by finding the opportunity to work with experienced software developers.
